- MVVM
- CocoaPods

Education

Bachelor of Computer Science: Software for Information

Technologies, BSUIR; Minsk

2018 – 2022

Experience

BSUIR, Software development for mobile platforms.

Projects:

Anime-Chest (<https://github.com/namelsErik/Anime-Chest>) (in progress).

— Basic CRUD, application interacting with RealTimeDatabase(Firebase) in the theme of Anime. Lets users authenticate, add, redact, delete anime entities. Also shows entities on a map and customize UI appearance via settings.
